The diagram illustrates a workflow for video files. At the top left is the YouTube logo, and at the top right is a silver digital camcorder. Two green arrows point from both towards a central text box that reads "保存した 動画ファイルを..." (Saved video files...). Below this text is an icon of a yellow folder and a film reel. A recycling symbol (a triangle of arrows) is positioned below the folder and reel. To the left of the recycling symbol is the text "各種端末用に 変換可能" (Convertible for various devices), and to the right is "スライドショーへの 作成も可能" (Can also be created for a slideshow). At the bottom left, there are icons of a tablet, a smartphone, and a portable media player, all displaying a lion's face. At the bottom right, there is a film strip icon with a large image of a dog's face on the main frame and smaller thumbnails below it.
