The image shows a promotional graphic for 'Shinji Chat' (シナジーチャット). On the left, there is a pink speech bubble containing the text: 'テレワーク支援サービス 非接触サポートへの転換を支援するチャットボット' (Telework support service: Conversion to non-contact support supported by chatbot). Below this, a smaller text block states: '目指したのは人よりも分かりやすい説明が、設定して出来るチャットボットです。パソコンよりは家る、でも新人よりは上手い、といったツールです。' (The goal was a chatbot that provides easier-to-understand explanations than a person, can be set up, is more convenient than a PC, but better than a novice, etc.). On the right, a smartphone screen displays a chat interface with a user profile, a list of messages, and a form with fields for '名前' (Name), '年齢' (Age), and '性別' (Gender). A red speech bubble next to the phone asks 'お聞きことは 済みませんか?' (Have you finished asking?).
