AIカメラ搭載、非接触式検知器
が対象です。

AIカメラが顔を自動認識し、
体温を表示します。

マスクをしたまま検知可能!

検知モニターに近づけてください

TOAMIT 非接触式検知器
サーモマネージャー
(ステッカー付き)

体温を瞬間測定。
体温が高い場合はアラームが鳴ってお知らせ。
体表面温度を瞬間で検知します。

The advertisement features a central image of a smartphone mounted on a stand. The phone's screen displays a woman's face wearing a white face mask, with a temperature reading of 37.8°C. To the left, there are smaller images showing the device in use and a list of compatible smartphone models: iPhone 11, iPhone 11 Pro, iPhone 11 Pro Max, iPhone SE (2nd generation), and Samsung Galaxy S20. A yellow callout box at the top left highlights that the device is eligible for subsidies. A vertical text on the left side states that it can detect temperature even with a mask. On the right, a large vertical headline reads 'Body temperature measured instantly.' followed by a sub-headline explaining that an alarm sounds if the temperature is high. The bottom of the ad identifies the device as the TOAMIT non-contact thermometer 'Thermomanager' with a sticker included.
