English translation: 1800-823-3233. In October 1700 - June 1878, the Japanese physician and scholar Kusunoki Kiyomasa (1700-1878) was the first to introduce the Japanese medical system to the West. He was also the first to introduce the Japanese medical system to the West. He was also the first to introduce the Japanese medical system to the West. He was also the first to introduce the Japanese medical system to the West.

In 1776, Kusunoki and his colleagues, in addition to other students of the British language, translated a work titled "Introduction to the Japanese Medical System" (originally published in 1776) into English. This work was published in London in 1776. It was the first book to introduce the Japanese medical system to the West. It was also the first to introduce the Japanese medical system to the West. It was also the first to introduce the Japanese medical system to the West.
